

## Who We Are

# We Don't Just Implement — We Architect

TSinfo Technologies is a Microsoft technology solutions company that helps organizations work smarter, collaborate seamlessly, and innovate with confidence.

Headquartered in Bengaluru and led by Microsoft MVP Bijay Kumar, we specialize in **Microsoft 365**, **SharePoint** intranets, **SPFx** solutions, **Power Platform** apps, and **AI-powered Copilot** agents.

Since 2018, we've delivered scalable, secure, and future-ready solutions that drive efficiency and impact across global sectors.

Backed by a team of **15 certified specialists**, we architect digital workplaces that empower people and accelerate business growth.

React

Fluent UI

# SharePoint, SPFx & Digital Workplace Services

Enterprise-grade SharePoint solutions designed for governance, productivity, and secure collaboration across Microsoft 365.

## Modern Intranet Experiences

Enterprise intranets that unify communication, knowledge, and employee engagement in one branded destination.

## Intelligent Document Management

Secure, structured document environments with metadata, versioning, retention, and fast enterprise search.

## Custom SPFx Engineering

Tailored SharePoint solutions engineered with React, TypeScript, and Fluent UI for scale and performance.

## Governance & Information Architecture

Clear governance models, permissions, and site structures that keep your digital workplace compliant and scalable.

## Digital Workplace Enablement

Role-based experiences that help teams work faster with the right content, tools, and workflows.

## Microsoft 365 Ecosystem Integration

Connected solutions across Teams, Planner, Outlook, OneDrive, Viva Engage, and Microsoft Graph.

# Power Platform Services

## Services

Low-code. High impact. Enterprise-grade automation and intelligence for your organisation.

### Power Apps Development

Canvas & model-driven apps that digitise manual processes, replace legacy systems & connect enterprise data

### Power Automate Workflows

Cloud & desktop flows for approval processes, document routing, notifications & cross-system integration

### Power BI Dashboards

Interactive reports, advanced DAX modelling & data-driven insights that increased efficiency by 40%

### Copilot Studio AI Agents

AI-powered agents for customer engagement, HR queries, IT support & intelligent automation

### Power Pages Portals

Secure external portals for customers, partners & vendors – no-code, enterprise-grade

### Hire Dedicated Developers

Flexible models: augment your team with certified SharePoint & Power Platform developers from India

# Why Enterprises Choose Us

## MVP-Led Expertise

Microsoft MVP Bijay Kumar personally oversees every engagement — not just a vendor, a trusted advisor

## Ready-to-Deploy Products

35+ pre-built SPFx web parts, solutions & Power Apps — go live faster, spend less

## Fast Turnaround

Agile delivery model with dedicated teams — most projects delivered in 4–8 weeks

## Cost-Effective from India

Senior Microsoft talent at India-based pricing — 40–60% cost savings vs. US/UK rates

## Full-Cycle Partnership

Strategy → Design → Build → Train → Support — one partner for the entire journey

## AI & Copilot Ready

Future-proof your workplace with AI agents, Copilot Studio & intelligent automation.
